

Wayne Woods Garden Club

FALL GREETINGS!

2018

It seems that the weather has gone from September directly to November, and skipped October! Hopefully, you enjoyed your pumpkin sandwich from our last meeting.

WWGC has been busy this October. The horticulture committee showed a few of us how to pot spring bulbs for forcing.

The President's Project is in full swing with Roberts Elementary School second grade. Gwen Puglisi purchased and delivered 18 pumpkins of various varieties. Both Gwen and I read the book, *The Saved Seed*, to the students. After Halloween, they will open their pumpkins and prepare the seeds to save until they can plant them in the pumpkin patch in the Spring.

Christmas is less than two months away. The Springfield Garden Club has invited us to a presentation on decorating for the holidays on November 14. See attachment for details.

Our **November** meeting will feature a speaker on orchids. We have all killed an orchid or two, or perhaps own an orchid that won't bloom. Join us to learn some useful tips for successful orchid growing. Bring a friend! See you on November 7!

Best regards,

Nancy

P.S. **Thank You** to all members. All membership dues have been paid!
